

CARTY & COMPANY, INC.

Notes to Financial Statement

December 31, 2013

NOTE A - OPERATIONS AND ORGANIZATION

Carty & Company, Inc. is a securities broker-dealer operating under provisions of the Securities Exchange Act of 1934 and is a member of the Financial Industry Regulatory Authority (FINRA). The Company is a wholly-owned subsidiary of Carty Financial Corporation.

The Company operates primarily as a principal in transactions for the purchase and sale of various types of debt securities which include obligations of the United States Government, federal government agencies, various state and local governments, and corporate debt. The Company also acts as agent for customers in acquiring certificates of deposits, equity securities, mutual funds and private placement of mortgage loans.

The Company's securities transactions are made primarily with individuals, financial institutions, credit unions, private organizations and other broker-dealers.

The Company operates under the provisions of Paragraph (k)(2)(ii) of Rule 15c3-3 of the SEC and, accordingly, is exempt from the remaining provisions of that Rule. Essentially, the requirements of Paragraph (k)(2)(ii) provide that Company clear all transactions on behalf of customers on a fully disclosed basis with a clearing broker-dealer and promptly transmit all customer funds and securities to the clearing broker-dealer. The clearing broker-dealer carries all of the accounts of the customers and maintains and preserves all related books and records as are customarily kept by a clearing broker-dealer.

The Company has contracted with Pershing, LLC to act in the capacity of its clearing broker and all customer funds and securities are safe kept with that institution in accordance with the Securities and Exchange Commission regulations. The customer's funds and securities are protected to limits provided by the Securities Investor Protection Corporation (SIPC) with additional protection provided by a third party to cover the entire account net equity up to an aggregate of \$100 million.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Recording Security Transactions

Purchases and sales of securities and related commission revenues and expenses are recorded on a settlement date basis, generally the third business day following the trade date. If materially different, transactions are adjusted to a trade date basis.

Collateral

The Company continues to report assets it has pledged as collateral in secured borrowing and other arrangements when the secured party cannot sell or pledge the assets.

Securities Owned and Securities Sold, But Not Yet Purchased

Marketable securities, consisting of stocks, corporate bonds, state, municipal and United States and agencies obligations, and securities sold but not yet purchased, are valued at market value. Securities not readily marketable are stated at their estimated value. Rules and regulations of the Securities and Exchange Commission require valuation of broker-dealer owned securities to be valued at market. Unrealized gains and losses have been included in income.

Accounting for Bad Debts

The Company uses the direct write-off method of accounting for bad debts. Management has reviewed all material accounts receivable and has charged operations with all amounts above anticipated collections. Management views all material amounts remaining as collectible; therefore, a provision for doubtful accounts has not been made.

Property and Equipment

Property and equipment are stated at cost.

Depreciation expense is determined by the straight-line method over the estimated useful lives of the assets, which range from three to ten years. Leasehold improvements are amortized over the lesser of the economic useful life or the term of the lease.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Advertising Costs

The Company expenses all advertising costs, including direct response advertising costs, as they are incurred. Total advertising costs for the year ended December 31, 2013 were \$33,196.

Income Taxes

The Company is included in the consolidated federal income tax return filed by its Parent. Federal income taxes are calculated as if the Company filed a separate return; and the amount of current tax expense or benefit calculated is either remitted to or received from the Parent. The amount of current and deferred taxes payable or refundable is recognized as of the date of the financial statements, utilizing currently enacted tax laws and rates. Deferred tax expenses or benefits are recognized in the financial statements for the changes in deferred tax liabilities or assets between years.

Allocated Expenses from Parent Company

The Parent incurs the costs of salaries, commissions and related expenses and allocates such costs to the operations of the Company. The Parent charges the Company a management fee to cover salary processing costs.

Events Occurring After Report Date

The Company has evaluated events and transactions that occurred between December 31, 2013 and February 24, 2014, which is the date that the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

NOTE C - FAIR VALUE MEASUREMENT

FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access.
- Level 2 inputs are inputs (other than quoted prices included within Level 1) that are observable for the asset or liability, either directly or indirectly.
- Level 3 are unobservable inputs for the asset or liability and rely on management's own assumptions about the assumptions that market participants would use in pricing the asset or liability. The unobservable inputs should be developed based on the best information available in the circumstances and may include the Company's own data.

Following is a description of the valuation methodologies used for the assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013.

U.S. government securities: Valued at the closing price reported in the active market in which the individual securities are traded.

Municipal securities: Certain municipal securities are valued at the closing price reported in the active market in which the security is traded. Other municipal securities are valued based on yields currently available on comparable securities of issuers with similar credit ratings, maturity dates, and other factors related to the security.

Corporate bonds: Certain corporate bonds are valued at the closing price reported in the active market in which the bond is traded. Other corporate bonds are valued based on yields currently available on comparable securities of issuers with similar credit ratings.

Common stocks: Certain common stocks are valued at the closing price reported in the active market in which the individual securities are traded. Investments in certain restricted common stocks are valued at the quoted market price of the issuer's unrestricted common stock less an appropriate discount. If a quoted market price for unrestricted common stock of the issuer is not available, restricted common stocks are valued at a multiple of current earnings less an appropriate discount. The multiple chosen is consistent with multiples of similar companies based on current market prices.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents the Company's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of December 31, 2013.

ASSETS	Level 1	Level 2	Level 3	Total
Cash	\$ 743,580	\$ -	\$ -	\$ 743,580
Securities owned:				
Obligations of the U.S. Government	8,962	1,744,103	-	1,753,065
Obligations of states, counties and municipalities	1,988,222	1,596,381	-	3,584,603
Corporate obligations	109,794	47,013	-	156,807
Stocks and warrants	3,207	-	-	3,207
Total Securities Owned	2,110,185	3,387,497	-	5,497,682
TOTALS	\$ 2,853,765	\$ 3,387,497	\$ -	\$ 6,241,262

NOTE C - FAIR VALUE MEASUREMENT - CONTINUED

Fair Value Measurements on a Recurring Basis
As of December 31, 2013

LIABILITIES	Level 1	Level 2	Level 3	Total
Securities sold, not yet purchased:				
Obligations of states, counties and municipalities	\$ -	\$ 21,791	\$ -	\$ 21,791
TOTALS	\$ -	\$ 21,791	\$ -	\$ 21,791

NOTE D - RECEIVABLE FROM AND PAYABLE TO BROKER-DEALERS AND CLEARING ORGANIZATIONS

Amounts receivable from and payable to broker-dealers and clearing organizations at December 31, 2013, consist of the following:

	Receivable	Payable
Deposits	\$ 100,000	\$ -
Due from clearing organizations	4,856,742	-
	<u>\$4,956,742</u>	<u>\$ -</u>

The Company clears certain of its proprietary and customer transactions through another broker-dealer on a fully disclosed basis. The amount payable to the clearing broker relates to the aforementioned transactions and is collateralized by securities owned by the Company.

NOTE E - INCOME TAX MATTERS

Net deferred tax assets (liabilities) consist of the following components as of December 31, 2013:

Deferred tax assets (liabilities):	
Property and equipment	\$ (32,651)
Less valuation allowance	-
	<u>\$ (32,651)</u>

The alternative minimum tax (AMT) credit carryforward may be carried forward indefinitely to reduce future regular income taxes payable. The AMT credit carryforward as of December 31, 2013 was \$20,666.

The company recognizes the accrual of any interest and penalties related to unrecognized tax benefits in income tax expense. No interest or penalties were recognized in 2013.

The parent and the Company are no longer subject to federal or state tax examinations by taxing authorities for years before 2010.

NOTE F - NET CAPITAL REQUIREMENTS

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined under the applicable rules, shall not exceed 15 to 1. At December 31, 2013, the Company had net capital of \$9,693,985, which was \$9,443,985 in excess of its required net capital of \$250,000. The Company's ratio of aggregate indebtedness to net capital was .12 to 1.

NOTE G - 401(K) PROFIT SHARING PLAN

The Company's employees are included in Carty & Company's qualified 401(k) profit sharing plan. The Company's contribution to the plan is determined by the Board of Directors and is discretionary. The Company contributed \$55,781 to the profit sharing plan for the year ended December 31, 2013.

NOTE H - COMMITMENTS AND CONTINGENCIES

The Company, in the normal course of its business, has matters involving regulations and procedures reviewed by FINRA, the SEC and other regulatory bodies. As of December 31, 2013, no items of material significance were outstanding as a result of such reviews.

NOTE I - GUARANTEES

FASB ASC 460, *Guarantees*, requires the Company to disclose information about its obligations under certain guarantee arrangements. FASB ASC 460 defines guarantees as contracts and indemnification agreements that contingently require a guarantor to make payments to the guaranteed party based on changes in an underlying (such as an interest or foreign exchange rate, security or commodity price, an index or the occurrence or nonoccurrence of a specified event) related to an asset, liability or equity security of a guaranteed party. This guidance also defines guarantees as contracts that contingently require the guarantor to make payments to the guaranteed party based on another entity's failure to perform under an agreement as well as indirect guarantees of the indebtedness of others.

Indemnifications

In the normal course of business, the Company indemnifies and guarantees certain service providers, such as clearing and custody agents, trustees and administrators, against specified potential losses in connection with their acting as an agent of, or providing services to, the Company or its affiliates. The Company also indemnifies some clients against potential losses incurred in the event specified third-party service providers, including subcustodians and third-party brokers, improperly executed transactions. The maximum potential amount of future payments that the Company could be required to make under these indemnifications cannot be estimated. However, the Company believes it is unlikely it will have to make material payments under these arrangements and has not recorded any contingent liability in the financial statements for these indemnifications.

The Company provides representations and warranties to counterparties in connection with a variety of commercial transactions and occasionally indemnifies them against potential losses caused by the breach of those representations and warranties. The Company may also provide standard indemnifications to some counterparties to protect them in the event additional taxes are owed or payments are withheld, due either to a change in or adverse application of certain tax laws. These indemnifications generally are standard contractual terms and are entered into in the normal course of business. The maximum potential amount of future payments that the Company could be required to make under these indemnifications cannot be estimated. However, the Company believes that it is unlikely it will have to make material payments under these arrangements and has not recorded any contingent liability in the financial statements for these indemnifications.

NOTE J - FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISKS AND CONCENTRATION OF CREDIT RISK

In the normal course of business, the Company may be exposed to risks in the execution of securities transactions. These transactions involve elements of risk as to credit extended, market fluctuations, and interest rate changes.

The Company's securities transactions clear primarily on a delivery versus payment basis. In transactions with repurchase agreements, margin may be required if market conditions are such as to indicate excessive elements of risk in these transactions. The execution of substantially all purchases and sales of securities requires the performance of another party to fulfill the transactions. In the event that a counterparty to the transaction fails to satisfy its obligation, the Company may be required to purchase or sell the security at the prevailing market price, which may have an adverse effect.

The nature of the securities industry is such that large cash balances are maintained in various financial institutions. These balances may exceed the limits of coverage guaranteed by the Federal Deposit Insurance Corporation.

The Company, as a securities broker-dealer, is engaged in various securities trading activities with a variety of customers including individuals, financial institutions, credit unions, insurance companies, pension plans, and other broker-dealers. The Company's exposure to credit risk associated with the non-performance of these counter-parties could be impacted by changing market conditions which would impair the counter-parties' abilities to satisfy their obligations to the Company.

NOTE K - ANNUAL REPORT OF FORM X-17A-5

The annual report to the Securities and Exchange Commission on Form X-17A-5 is available for examination and copying at the Company's office and at the regional office of the Securities and Exchange Commission

NOTE L - COLLATERAL

Amounts that the Company has pledged as collateral, which are not reclassified and reported separately, at December 31, 2013, consisted of the following:

Financial Statement Classification	Carrying Amount
Securities owned-at fair value	\$5,497,682

Statement of Financial Condition

December 31, 2013

ASSETS

Cash	\$ 743,580
Receivables:

Report on the Financial Statements

We have audited the accompanying statement of financial condition of Carty & Company, Inc. (the Company) as of December 31, 2013 that is filed pursuant to Rule 17a-5 under the Securities Exchange Act of 1934, and the related notes to the financial statement.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of this financial statement in accordance with accounting principles general accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on this financial statement based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statement, wither due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that the audit evidence we have obtained is sufficient and appropriate to provide basis for our audit opinion.

Opinion

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of Carty & Company, Inc. as of December 31, 2013, in accordance with accounting principles generally accepted in the United States of America.
